Title

Method and Apparatus for Initiating a Telecommunications Service

Art Unit

LETTER

Hon. Commissioner of Patents and Trademarks, Washington, D.C. 20231

Sir:

Undersigned counsel has received the Filing Receipt for the above-identified application.

However, the continuing information has been omitted and should be listed as:

THIS APPLN IN A CON OF

PCT/DE00/00828

03/17/2000

It is respectfully requested that the Patent Office Records be changed and that a new Filing Receipt be issued, so that the printed patent will show the correct continuing information.

Respectfully submitted,

OREN DONALD PEARSON

RECEIVED

SEP 1 2 2001 Technology Center 2600

Background of the Invention:

Field of the Invention:

The invention relates to a method for initiating a service in a telecommunications network.

15

20

25

The term telecommunications service or added-value service, also referred to for short as a service in the following text, is understood to cover, basic functions, such as transmissions in addition to the network functions offered. Known services are, for example, telephone numbers subject to special charges, standard telephone numbers, virtual private network (VPN) or universal personal telecommunications (UPT).

In public networks, these services (and service features) can be implemented in special centralized devices. Changes to

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the PTO processes the reply to the Notice, the PTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

If Required, Foreign Filing License Granted 03/06/2001

FRECEIVING MARCH 200

Title

Method and apparatus for initiating a telecommunications service

Preliminary Class

379

Data entry by : DILLON, LAWANDA

Team: OIPE

Date: 03/06/2001

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184 Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CRF 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 36 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15 (b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- o The title may be truncated if it consists of more than 600 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:

(54) Title: METHOD AND DEVICE FOR TRIGGERING A TELECOMMUNICATIONS SERVICE

(54) Bezeichnung: VERFAHREN UND VORRICHTUNG ZUM AUSLÖSEN EINES TELEKOMMUNIKATIONSDIENSTES

(57) Abstract

11.1 837 for triggering a telecommunications service which is independent of a The aim of the invention is to provide a novel meth connection-establishing operation initiated by the service user. The application protocol (also called the IN service logic) is triggered by a so-called external or virtual trigger

(57) Zusammenfassung

Aufgabe der Erfindung ist es, ein neues Verrähren zur Auslösung eines Telekommunikationsdienstes anzugeben, welches unabhängig ist von einem durch den Dienstnutzer initiierten Gesprächsaufbau. Das Anwendungsprotokoll (auch IN Service Logic genannt) wird durch einen sogenannten externen oder auch virtuellen Trigger ausgelöst.
